## 8000D Dissolvable Labels

Direct thermal paper label with specialty adhesive that dissolves with water

Removing labels from containers before washing can be time-consuming and frustrating, while not removing a label can be costly - blocking drains and damaging equipment. Zebra, a leader in thermal technologies, offers a solution from our Certified Supplies portfolio, the 8000D Dissolvable Label.

When subjected to running water, this innovative direct thermal label disperses into small paper fibers while the adhesive dissolves away from most surfaces, washing cleanly down the drain and leaving no trace of the label.\*

### Prevent equipment damage and increase worker productivity

With the 8000D Dissolvable label you can:

- Save time – No need for workers to manually remove a label or adhesive
- Save money – Prevents drain blockages and costly repairs
- Be in compliance – Easily comply with health department standards

### Part of the trusted Zebra Certified Supplies Portfolio

Zebra's 8000D Dissolvable label gives you the promise of consistently outstanding quality, exceptional service and unmatched expertise you have come to know and expect with all Zebra Certified Supplies. Thorough testing of all materials ensures reliable performance with every order. When you use Zebra Certified Supplies, you can rest easy knowing the print will be readable and scannable, every time.

\*Time to dissolve varies based on water temperature and pressure.
